Uncovering The Hidden Treasures of The Mushroom Kingdom:A Classification Analysis:

Despite the growing interest in mushrooms and their various benefits, there is a lack of reliable and comprehensive information on the classification, edibility, medicinal properties, nutritional value, culinary uses, and habitat of different types of mushrooms. This hinders mushroom enthusiasts, scientists, chefs, health-conscious people, and environmentalists from fully understanding and utilizing the potential of mushrooms. Therefore, there is a need to develop a classification analysis project that can accurately and comprehensively classify different types of mushrooms based on various criteria, such as edibility, medicinal properties, nutritional value, culinary uses, and habitat. This project aims to provide a reliable source of information for various stakeholders and enable them to make informed decisions about mushrooms.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Mushroom Kingdom	Classify the type	Nothing here to help me	No one creates an best to classify the mushroom	Helpless
PS-2	_	_	_	_	_
